Experience

Founder & CEO Jun. 2024 – Present

zero, LLC *Remote*

- Built **Hermes Tern**, a native terminal UI for Hermes (plan review, forked sessions, OpenUI previews, voice), and **Dash**, an Expo phone app plus Bun bridge over Tailscale that keeps one live thread per agent harness (Hermes, Codex, Claude Code, OMP, Grok); both in daily use.
- Landed 41 commits on **NousResearch/hermes-agent** main (Aug.–Oct. 2026) across runtime correctness (cron, gateway watchdog, config signatures), context-compaction safety, kanban, desktop, and platform adapters; opened 194 PRs and 161 issues and commented on 1,272 threads upstream.

Senior Consultant, Technology Enablement Jun. 2021 – Jul. 2023

Slalom Consulting *Chicago, IL*

- Steered the conceptualization of a preventative health platform acting as product owner. Orchestrated the amalgamation of diverse health data sources, from wearables to full metabolic/blood panels. Initiated outreach to several health tech leaders and experts to gather insights, shaping preliminary ideas for platform features. Prioritized areas of focus by aligning the platform with cutting-edge health research and its potential for predictive analysis and enhanced patient outcomes.
- Spearheaded the creation of a centralized knowledge base, curating exemplary business documents like SPROs, customer stories, qualifiers, and evaluations across technological and business administrative platforms to enhance company-wide accessibility post-sanitization and lay the groundwork for AI-driven content generation.
- Championed a comprehensive DevOps training program tailored for over 500 new hires, ensuring a smooth transition into the company's technology ecosystem. Designed an engaging onboarding session anchored around point poker, fostering collaboration and hands-on learning. Orchestrated multi-cloud environments to provide an interactive, holistic, real-world experience of the best practices we use with our clients.

Sponsorship Staff Aug. 2015 – May 2016

HackIllinois *Champaign, IL*

- Raised over $300,000 by building long-lasting relationships with over 120 corporations.
- Streamlined relations between the staff and sponsoring corporations to guarantee an inviting corporate experience during the event while managing several other logistics of the hackathon.

Projects

Quackles (Microduck product study) 2026

- Product page homage to the Hermes Agent poster: Blender Cycles plates in five themes and a 201 MP deep-zoom master served as a WebP tile pyramid.
- The same pyramid backs an infinite-canvas portfolio with semantic zoom: overview, summaries, details, then commit-level evidence.

Education

University of Illinois at Urbana-Champaign Urbana-Champaign, IL

B.S. Engineering Physics, Minor in Computer Science *Graduated May 2020*
